September 2017 - June 2019

AA Transfer Degree

- **GPA:** 3.64
- **Notable Courses:** CS 210/211, Web Programming 109, Calculus 151/152, Physics 121, Critical Thinking 115

PROJECTS

Personal Website

- Fully completed website featuring home, about me, resume, projects, and contact pages.
- Initially started as part of an intro web-design class but finished and polished in my spare time using HTML, CSS, and JavaScript. Located at cmarqc.com

Explore UW - Student Project

- Made as a summer project with my roommate to help first year students at the University of Washington learn more about the campus, major system, and intricacies of student life that they otherwise may not have known about. Hosted on GitHub pages at cmarq07.github.io/Explore-UW/

Stat Tracker App

- Made to track basketball stats such as points, rebounds, steals, etc. Made using Android Studio + Java as a personal project

Music Player App

- A basic music player that searches for .mp3 files on a person's phone and makes them available to play, pause, stop, etc. Made using Android Studio + Java as a personal project

Sinking Ships Game

- Simple Battleship game. Input a number and see if that corresponds to the location of a ship. Web-based game that uses only HTML, CSS, and JavaScript. Uses some image/sound assets from The Legend of Zelda: The Wind Waker

ORGANIZATIONS

Brotherhood Initiative

September 2019 - Current

- Program at UW that helps empower undergraduate males of color
- Provides professional and experiential development opportunities
- Recruitment Lead for High Schools

Dawgs Crew

September 2019 - Current

- Volunteering program at the University of Washington
- Helped new/returning dorm residents move in

Young Executives of Color (YEOC)

September 2018 - May 2019

- Business program hosted through the University of Washington. I was one of ~170 acceptances out of 700+ applicants
- Learned about various aspects of business, including marketing, financing, and accounting
- My team placed 3rd in the renowned annual YEOC Case Competition

EXPERIENCE

Geeking Out Kids of Color (GOKiC)

February 2021 - Current

Seattle, WA

- Maintain key project documents and communication
- Work with youth to identify areas of interest and passion in Computer Science

Café Attendant

January 2018 - June 2019

Sano Café / Mercer Island, WA

- Learned to work with customers
- Managerial role as closing lead
- Learned cashiering and food prep
